Grand Master J. A. Henry of Tennesses died recently at his home in Chattanooga. He was one of the most progressive, highly educated and cultured men of the race and his death means an immense loss to our craft.

Professor Henry made a high mark as an educator anad citizen as well as a Mason and his funeral was attended by the mayor and other officials of this city as well as by many of the wealthlest private citizens. During the four days in which his body lay in state in a beautiful purple casket coveried with a wealth of flowers over five thousand persons paid him tribute in tearful farewell. There is a reason why the larger per cent of Cabinet Stationary used by Kansas City's "400" is turned from the Arthur W. Harris Printing Establishment. First their workmanship in this class of service is unexcelled by any of the larger and best equipped printing establishments in this city, since they all but make a specialty of this class of work. Second, while their prices are not always the lowest, they are always the foirest. They have "delivered" with accuracy and despatch to over 90 per cent of the classy weddings and receptions during the past year and now when a function of class is announced its a ten-to-one shot that Harris will handle the job.

THE COLORED WORKING

GIRL. In reading the numerous articles anent the pending investigations into the relation between vice and low wages among working girls, I often wonder if any of the social economists or philanthropists interested ever gives a thought to the peculiar conditions con-

fronting the colored girl. Debarred by race prejudice from seeking employment in office, store or factory, no matter what her training, education or special aptitude, she must enter the army of house workers to whom employment spells long hours, small pay, scant time for recreation or attention to personal needs—"staying nights" meaning often sleeping in the kitchen (!) or attic or at best sharing one's room with a stranger often personally uncongenial. Yes, there is teaching and sewing and hair dressing-oh. the uitifully few "genteel" occu-pations for the dusky maid! These are overcrowded and demand special training. The girl not so fortunate as to have suc-ceeded in one of these lines looks longingly over the long list of "wants" at the demand for help in trades, stores and offices, knowing she will meet "no colored need apply," no matter how nature or training may have fitted her to fill the advertised position. Finally she accepts work as a domestic; physically she may not be able to meet the demands upon her strength; or the deadly monotony, absence of all association with social equals, or the de-pressing effect of her environment drives her out to drift with the mass of "unemployed" thronging the city's streets and contributing to the increase of social evil-a bit of flotsam and letsam in the wreckage along life's stream that might have been a useful portion of the so-cial structure had not the deadly bugbear of "social equality" closed the doors to remunerative and congenial employment.

You men who so carefully protect and provide for the "working girl," will you give the colored girl a fair chance to an honest and fair livelihood in me of the many avenues open

It is the Armour interest in Chicago that make possible the existence of Provident hospital, the pride of the Negroes of Chicago. During the existence of Douglass hospital in Kansas City, Kas., Mr. Armour has lent valuable aid to its support. On the other hand, may we ask: what has Mr. William R. Nelson, editor of the Kansas City Star, done for the Negro?

Is this not a most splendid oppor tunity for us as a race to show gratitude to those who make it possible for us to succeed?

I do believe my people are ever grateful to those who help us to make our opportunities better. I do believe there is in the heart of every Negro in Kansas City that racial pride which makes him keenly responsible to that desire to take advantage of this occasion and show Mr. Armour
